

LF1390

LF1390 fiber laser cutting machine is special for high precision machinery parts and microelectronics industry. LF1390 laser cutting machine with faster speed and higher precision is professional for cutting thin metal sheet as stainless steel sheet, carbon steel sheet, Galvanized steel sheet and etc.

Double grinding ball screw work with Panasonic servo system, make sure the high precision.

Small size, save your space.

Whole covered, protect you from laser damage.

Technical Parameter

Machine Model	LF1390
Laser power	300W 500W 750W 1000W(optional)
Dimension	2110*2160*1630mm
Working area	1300mm x 900mm
Repeat positioning accuracy	±0.01mm
Maximum speed	40m/min
Maximum Acceleration	0.5G
Specified voltage and frequency	380V/50Hz/60Hz/60A

Application Industry

LF1390/0640 is specially designed for high precision cutting . It is widely used in machinery , microelectronics,glasses,electronics and other industries,which has high requirements on the cutting accuracy.
